

**S.p.S**

**Kasabian**

Even though I know it strong  
It's time for us to get back home  
Look how all the ours come  
I hate for you to be alone  
Let's play sticks and paper stone  
Now it's only us to live  
We lost a few good men on the way  
Started out as quiet a crowd  
Let tomorrow wait another day  
Let tomorrow wait another day

()

Didn't we all have such a good time?  
Didn't we all have the greatest night  
The greatest night, the greatest night?  
(Live the night you can remember)  
(Live the night you can remember)

()

Didn't we all have such a good time?  
Didn't we all have the greatest night  
The greatest night, the greatest night?
