

Black (feat. A\$AP Ferg)

Buddy

Black
Black, black, black
Black on black, black
Yeah, hey, okay Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking that black on black
It's black
Black rims on these black wheels
In this black whip with this black bitch
I'm so black on black on black on black on black
Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking all black
Everything is black
Black rims on these black wheels
In this black whip with this black bitch
I'm so black on black on black on black on black
Aye, black out the coupe
Hop out the roof when I run into you
Thoughts black as the dark side of the moon
Won't be no truce, won't be no truce
At your funeral in an all black suit
Couple white girls rocking all black too
Million men march in the all black boots
Call up the troops, call up the troops
Punch you in the mouth, then knock out your tooth
I can tell when they not tellin' the truth
Talkin' that shit, nigga what you gon' do
What you gon' do? What you gon' do?
Back and I'm black and I'm acting brand new
Niggas in the back like, "Oh word"
Diamonds all black like, "Fuck what ya heard"
Fuck what ya heard, fuck what ya heard
Spillin' some Hennessy Black on the curb
This for the memory of the deceased
When I black out, I awaken the beast
What it's gon' be? What it's gon' be?
You don't wanna fuck with a nigga like me

Bet you never seen a mothafucka so black
Nigga, I'm black on black on black on black
Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking that black on black
It's black
Black rims on these black wheels
In this black whip with this black bitch
I'm so black on black on black on black on black
Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking all black
Everything is black
Black rims on these black wheels
In this black whip with this black bitch
I'm so black on black on black on black on black I feel like Trayvon with this black hoodie on
Huey P. Newton
Black Revolution
I'm with a Nubian Queen and some illegal aliens
I got a black fist balled up and it ain't just me, it's all us
Four hundred years of oppression
I'm about to get me that black Tesla
Black Skid marks on the pavement
Cops wanna see me in a black cage
Black on black on black
Master Juba with the tap dance
Gucci with the Dapper Dan
Tell 'em, "Kiss my black ass"
Ridin' on the dyno with black mags
Just another black man tryin' stay up out the casket
Black don't crack
Matter fact, where the fuck our forty acres at? Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking that black on black
It's black
Black rims on these black wheels
In this black whip with this black bitch
I'm so black on black on black on black on black
Black, black, black
Black on black
Black my thoughts so black
Black, black on black
My skin is so black, I'm rocking all black

Everything is black
 Black rims on these black wheels
 In this black whip with this black bitch
 I'm so black on black on black on black on black This kid black Timbs black
 Kill tracks like I'm six black (Black ass nigga!)
 Hair blacker than black lips black
 Even my dick black
 Grandad Irish Trinidad
 Guess I am half (Black ass nigga!)
 I gotta go to Ancestry.com
 I think I'm 'bout to black
 All the police ain't about the black
 He still a pig even though he black
 Willie got a lynched head in that
 If you black you dead in that
 Strange fruit hang from a tree
 On the leaves is red and that
 Do it right like a Garveyite
 Africa, I'm heading back
 Niggas in the street black on black
 Kill him with the heat (Blat, blat, blat)
 Cut off his feet (put em in the shackle)
 Mansa Musa been had the cash
 Mix blacks to dilute blacks
 Don't want blacks to produce blacks
 Take black and they boot that
 Orange is the new black Black, black, black
 Black on black
 Black my thoughts so black
 Black, black on black
 My skin is so black, I'm rocking that black on black
 It's black
 Black rims on these black wheels
 In this black whip with this black bitch
 I'm so black on black on black on black on black
 Black, black, black
 Black on black
 Black my thoughts so black
 Black, black on black
 My skin is so black, I'm rocking all black
 Everything is black
 Black rims on these black wheels
 In this black whip with this black bitch
 I'm so black on black on black on black on black Black, black, black, black, black...
