

Hope

Boris

Always dream
Big dreams
That's what you were saying
"Until when?"
Finishing the glass of milkshake I know... for sure
I know what love is You're always running
With seat on the forehead
You're standing, tilting your head
On the corner of the avenue
I know... for sure
I know what love is Kiss me now
Stop crying now
Smile, as always
And count the stars
I know... for sure
I know what love is Always look forward to tomorrow
And live on
That's you
