

# Even Angels

## Fantasia

I'm driving in circles, shoulda bought that new phone  
I cant find my way to, all the places I call home  
I'm (on my own)  
I'm at the station pumping gas, yeah I'm taking out the trash  
I'm (all alone)And who's there? Who's there?  
Since you been gone, I learned how to move on  
How to be myself, I don't need nobody still  
I'm doing so good, I forgot that I could  
Live like this, woohh  
First step, take a deep breath  
You don't need a reason why  
You can, you can take, take time  
You can, you can walk, run, diveClose call, you think you might fall  
But all you gotta do is try  
Even angels, even angels learn... to fly  
Coming home and it's late night, shoulda left the lights on  
I can't help but imagine, all the things that could go wrong  
I'm (on my own)  
I'm in the kitchen on the chair, reaching for the top shelf  
I'm (all alone)  
And I'm ok, I'm alright  
Since you been gone, I learned how to move on  
How to be myself, I don't need nobody still  
I'm doing so good, I forgot that I could  
Live like this, woohh  
First step, take a deep breath  
You don't need a reason why  
You can, you can take, take time  
You can, you can walk, run, dive  
Close call, you think you might fall  
But all you gotta do is try  
Even angels, even angels learn... to fly  
Everyday I'm stronger, cant get better, if it, if it don't hurt  
Why? Oh I! Oh I!  
See me in my next life  
Cause heartbreak's a teacher, and I'll love, I'll love a little bit deeper  
Why? Oh I! Oh I!Yeah  
First step, take a deep breath  
You don't need a reason why  
You can, you can take, take time  
You can, you can walk, run, diveClose call, you think you might fall  
But all you gotta do is try

Even angels, even angels learn...

to FLY!!!!!!

FLY!!!!!!

FLY!!!!!!

FLY!!!!!!

Close call, you think you might fall

But all you gotta do is try

Even angels, even angels learn how to fly
