

# How Can You Swallow So Much Sleep

## Bombay Bicycle Club

Can I wake you up, can I wake you up?  
Is it late enough, is it late enough?  
There's a story in  
which my eyes shut  
Could you back me up, could you back me up?  
Could you back me up?  
There's a story in which my eyes shut  
Is it late enough, Is it late enough?  
Can I wake you up, can I wake you up?  
Is it late?  
Can I wake you up, can I wake you up?  
Is it late, is it late, is it late enough?  
There's a story in which my eyes shut  
Can I wake you up, can I wake you up?  
Is it late enough, is it late enough?  
There's a story in which my eyes shut  
Could you back me up, could you back me up?  
Can I wake you up, can I wake you up?  
Is it late enough, is it late enough?  
There's a story in which my eyes shut  
Could you back me up, could you back me up?  
Saw you hang back  
With your eyes looking down  
And it's all wasted now.  
Told you but you can't take it.  
Can I wake you up, can I wake you up?  
Is it late enough, is it late enough?  
There's a story in which my eyes shut  
Could you back me up
