

# Be There

## IAMDYNAMITE

You can feel me in the sea  
All you ever thought you'd feel or see  
Tell me now whether we go on  
Set me on fire when the power's gone Hold me, hold me, hold me  
Close and say you feel alright  
I know When the light was feeler to the sea  
So darling, darling, darling easy now You got me running but I really don't care  
You got me running to the any old air  
You got a feeling but you get it on top  
You gotta love me baby anything star  
You never come but I get you going far  
Someone there to come and get you going far  
You never come but I get you going far  
Someone there to come and get you going far Be there won't ya be there  
Woah woah woah woah  
And a be there won't ya be there  
Woah woah woah waoh Tell me I'm gonna get so real  
Tell me I'm gonna get so real  
Tell me I'm gonna get so real  
Tell me I'ma gonna get so real, real You can feel me in the sea  
All you ever thought you'd feel or see  
Tell me now whether we go on  
Set me on fire when the power's gone  
Hold me, hold me, hold me  
Close and say you feel alright  
I know When the light was feeler to the sea  
So darling, darling, darling easy now You got me running but I really don't care  
You got me running to the any old air  
You got a feeling but you get it on top  
You gotta love me baby anything star You never come but I get you going far  
Someone there to come and get you going far  
You never come but I get you going far  
Someone there to come and get you going far Be there won't ya be there
