

Space For Us (feat. Youngr)

Wingtip

We got it? CoolIt gets so hard to keep your heart when you're away
When I'm on the run and I'm far from home, and I see your face
And you drift away 'cause you're afraid, that's all'Cause I got the space for us, yeah
Right here where we're safe from love, yeah (safe from love)
'Cause feelings are dangerous, yeah
But don't hide your face, don't run away
'Cause I got the space for us
Yeah, I got the space for us (ooh yeah)
Right here where we're safe from love (ooh, ooh, ooh yeah)
'Cause feelings are dangerous (ooh yeah)
But don't hide your face, don't run away
'Cause I got the space for us, yeah
Push it down for
Push it down for me
Push it down for
Push it down for me
Push it down for
Push it down for me
Push it down for
Push it down for me
Push it down for meNow I'm wide awake and I start to trace you on the floor
Now I'm not so sure what you're asking for, and you're at my door
These days get long when I'm on my own, I'm losing sleep
But the way you walk, the way you talk gives me relieve
But I got the space for us, yeah
Right here where we're safe from love, yeah (safe from love)
'Cause feelings are dangerous
But don't hide your face, don't run away
'Cause I got the space for us
Yeah, I got the space for us (ooh yeah)
Right here where we're safe from love (safe from love)
'Cause feelings are dangerous
But don't hide your face, don't run away
'Cause I got the space for us, yeahPush it down for
Push it down for me
Push it down for
Push it down for me
I got the space for us
Push it down for
Push it down for me
Push it down for
Push it down for me
Push it down for meI know, I know that I can't get too close
It's hard to take it slow

And I know, I know, I can't get too close
It takes time to let it grow But I got the space for us, yeah
Right here where we're safe from love, yeah
'Cause feelings are dangerous
But don't hide your face, don't run away
'Cause I got the space for us
'Cause I got the space for us
Right here where we're safe from love (safe from love)
'Cause feelings are dangerous
But don't hide your face, don't run away
'Cause I got the space for us, yeah Push it down for
Push it down for me
I got the space for us
Push it down for
Push it down for me
Push it down for
Push it down for me
Push it down for
Push it down for
Push it down for me 'Cause I got the space for us
