

# Not Alone

## Heffron Drive

Lax to charles the gaulle  
It's another airplane, another show  
I can go days, no sleep at all  
Cause living on edge and sleeping  
On my own, own, own  
Is getting really old, old, old  
The city skyline view from here  
Is not the same thing without you near  
Click your pretty heels and just appear  
Ruby red lips and arms that I can hold, hold, hold  
And never let you go, go, go  
Everything I know,  
Is everything you told me  
You keep me afloat  
When I'm miles away from home  
In a crowd room with faces,  
They don't know me  
I can think of you and I know  
I'm not alone  
I know I'm not alone  
Are you on the beach in california?  
In a two-piece, sipping drinks  
Or are you sitting back home in our favourite chair?  
All I think about is sitting there with you, you, you  
Is all that I can do, do, do  
There's about a billion people  
In the space between us  
But you're the only one that I wanna be with  
It's taking all of me that I can spare  
It's breaking everything inside  
I swear it's true, true, true  
I only think of you, you, you  
Everything I know,  
Is everything you told me  
You keep me afloat  
When I'm miles away from home  
In a crowd room with faces,  
They don't know me  
I can think of you and I know  
I'm not alone  
I know I'm not alone  
I'm not alone, I'm not alone

I cant breathe without you,  
I cant sleep without you by my side everynight,  
I cant eat without you,  
I cant dream without you by my side everynight.

Everything I know,  
Is everything you told me  
You keep me afloat  
When I'm miles away from home  
In a crowed room with faces,  
They don't know me  
I can think of you and I know  
I'm not alone  
I know I'm not alone  
Everything I know,  
Is everything you told me  
You keep me afloat  
When I'm miles away from home  
In a crowed room with faces,  
They don't know me  
I can think of you and I know  
I'm not alone  
I know I'm not alone
