

# Soul Searcher

## Clannad

I can quote a lot of lines  
That's pertinent to you and me  
Life and all it's many choices  
Are so funny and so mean  
Deep thoughts in one's convictions  
Can be someones discontent  
Just what it seems isn't  
If must needs the devil drives Soul searcher what are you looking for  
Soul giver what will you settle for  
Back to the very beginning  
Back to the future I don't mind  
As long as philosophical people  
Keep their minds alive  
Could we use the back pages  
Of a bible of ages  
If you could write it now  
Well if needs must the devil drives Soul searcher what are you looking for  
Soul giver what will you settle for  
Soul searcher what are you looking for  
Soul giver what will you settle for Alone searcher is owed a lot of love  
Soul searcher what will you settle for
