

Soul Searcher

Clannad

I can quote a lot of lines
That's pertinent to you and me
Life and all it's many choices
Are so funny and so mean
Deep thoughts in one's convictions
Can be someones discontent
Just what it seems isn't
If must needs the devil drives Soul searcher what are you looking for
Soul giver what will you settle for
Back to the very beginning
Back to the future I don't mind
As long as philosophical people
Keep their minds alive
Could we use the back pages
Of a bible of ages
If you could write it now
Well if needs must the devil drives Soul searcher what are you looking for
Soul giver what will you settle for
Soul searcher what are you looking for
Soul giver what will you settle for Alone searcher is owed a lot of love
Soul searcher what will you settle for
