

# Rescue Me (feat. Unlike Pluto)

## Seven Lions

Running 'round in circles, don't need to know which way to go  
Caught up in the motion with feelings I, I can't control Try to contain all this overflow  
Watch me spill over and fall to

A million pieces, a million pieces No I can't be trusted to wear it on my sleeve

No I can't be trusted to say just what I mean

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for

All that I am asking for Caught up in the moment of what I want

Can't let go, 'til I've got a motive

It's what you want, what you're waiting for Try to contain all this overflow

Watch me spill over and fall to

A million pieces, a million pieces

No I can't be trusted to wear it on my sleeve

No I can't be trusted to say just what I mean

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for

You don't rescue me

All that I am asking for You don't rescue me

You don't rescue me

You don't rescue me

You don't rescue me

All that I am asking for All that I am asking for

All that I am asking for

All that I am asking for  
All that I am asking for  
All that I am asking for  
All that I am asking for  
All that I am asking for  
All that I am asking for
