

# A Marshmallow World

Brenda Lee

It's a marshmallow world in the winter  
When the snow comes to cover the ground  
    It's the time for play  
    It's a whipped cream day  
    I wait for it the whole year around  
Now those marshmallow clouds being friendly  
    In the arms of the ever-green-trees  
    And the sun is red like a pumpkin hay  
    It's shining so your nose won't freeze  
Oh' the world is the snowball, see how it grows  
    That's how it grows  
    Whenever it snows  
The world is the snowball just for our soul  
    So get up and roll it along  
It's a yummm yummy world made for sweet hearts  
    Take a walk with your favorite guy  
    It's a sugar date what a spring is late  
In winter it's a marshmallow world (It's a marshmallow world in the winter)  
    (When the snow comes to cover the ground)  
    It's the time for play  
    It's a whipped cream day  
    I wait for it the whole year around  
    (Those marshmallow clouds being friendly)  
    (In the arms of the ever-green-trees  
    And the sun is red like a pumpkin hay  
    It's shining so your nose won't freeze  
Oh' the world is the snowball, see how it grows  
    That's how it grows  
    Whenever it snows  
The world is the snowball just for our soul  
    So get up and roll it along  
It's a yummm yummy world made for sweet hearts  
    Take a walk with your favorite guy  
    It's a sugar date what a spring is late  
In winter it's a marshmallow world It's a marshmallow world  
    It's a snow covered world  
    It's yummy, yummy world  
    It's a marshmallow world
