

# Still

## Seinabo Sey

I've been thinking, about tomorrow  
instead of drowning in the past  
Oh we had good times even back when  
dreams were all we had to last  
So as I wake up this bright morning  
nothing's gonna bring me down  
(?) are singing, wind is (bolming?)  
Summer's here to stick around I still, remember me before you  
I will, no longer need your rescue  
Since I still, remember me before you  
I'm no fool  
Tell them, I'm no fool

...  
It hit so clear, perfectly crystal  
I've been here long enough to know  
When to leave and when to tell you  
time has come to close the show  
I still, remember me before you  
I will, no longer need your rescue  
Since I still, remember me before you  
I'm no fool  
Tell them, I'm no fool  
I'm no fool  
Tell them, I'm no fool

...  
Heeey I'm no fool  
You need to know that I'm no fool  
I am no fool  
Baby I'm no fool
