

Taste in Men

Placebo

Come back to me a while
Change your style again
Come back to me a while
Change your taste in men
It's been this way since Christmas Day
Dazzled, doused in gin
Change your taste in men Come back to me a while
Change your style again
Come back to me a while
Change your taste in men
I'm killing time on Valentine's
Waiting for the day to end
Change your taste in men
