

# Taste in Men

## Placebo

Come back to me a while  
Change your style again  
Come back to me a while  
Change your taste in men  
It's been this way since Christmas Day  
Dazzled, doused in gin  
Change your taste in men Come back to me a while  
Change your style again  
Come back to me a while  
Change your taste in men  
I'm killing time on Valentine's  
Waiting for the day to end  
Change your taste in men
