

Cop and Go

The Dead Weather

Beautiful eyes long gone
Beautiful eyes return
Beautiful lies set in stone
Come alive, disarm
Take my life, alter form You look at me on the level, uh-huh
Like we got shit to settle, uh-huh
But all you do is cop like a cop
And go Here he comes shaking his old alibi
Here he comes eating his whole pie in the sky
Beautiful eyes, strange glow
Beautiful eyes, danger zone Beautiful eyes, undertow
Creepin' up on your soul
Ain't no time to take it slow
Look at me on the level, uh-huh
Like we got shit to settle, uh-huh
You cop like a cop in a cookie jar
Get what you what? Did you get it all?
Oh please, give a little back to me Beautiful eyes, burning slow
Thousand yard stare in my horoscope
Fully loaded so unload
Can't save myself, I been told Look at me on the level, uh-huh
Like we got shit to settle, uh-huh
Cop like a cop in a cookie jar
Get what you want? Take it all Cop like a cop
You cop like a cop
You cop like a cop like a cop
Like a cop like a cop
You cop like a cop and you go go go
You cop like a cop and you go go go
You cop like a cop and you go go go
You cop like a cop and you go go go go, oh Won't you give
a little back to me?
