

# I Want Nothing

Kerli

Having the time of your lives  
Happy within your disguise  
Watch how the child in you dies  
Circles inside on your mind There is more than meets the eye  
Life is more than meets the eye Strange, how you got it  
But you're still coming back for more  
But I want nothing  
If you think that you got it  
Why they're treating you like a whore?  
And I want nothing  
Faking it all of the time  
Conscience, it cuts like a knife  
When will you start to realize?  
We don't have time on our side There is more than meets the eye  
Hits you right between the eyes Strange, how you got it  
But you're still coming back for more  
But I want nothing  
If you think that you got it  
Why they're treating you like a whore?  
And I want nothing from you  
And I want nothing from you  
I want nothing There is more than meets the eye  
Hits you right between the eyes  
Strange, how you got it  
But you're still coming back for more  
But I want nothing  
If you think that you got it  
Why they're treating you like a whore?  
And I want nothing from you  
And I want nothing from you  
And I want nothing Strange, how you got it  
But you're still coming back for more  
But I want nothing  
If you think that you got it  
Why they're treating you like a whore?  
And I want nothing from you  
And I want nothing from you  
And I want nothing Strange, how you got it  
But you're still coming back for more  
But I want nothing  
If you think that you got it  
Why they're treating you like a whore?

And I want nothing
