

# In the Air (Radio Edit) [feat. Keri Hilson]

## Chipmunk

In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
What is everybody afraid of me for  
See the age I came through, I weathered the storm  
I'm playing with thunder and firing myself  
They making it rain? We making it hail  
You wanna visit fire? I'll throw 'em to hell  
They can't see me, but they feel me, I'm basically Braille  
You're looking at the holy grail  
And this is what I wanna make, I don't care if it sells  
Put them lighters up  
(Come on, put them in the air)  
Put them lighters up  
(Everybody, everywhere)  
Put them lighters up  
(High where I can see)  
Put them lighters up  
So you can shine like me  
In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
Why you acting like you ain't heard of me?  
This is sick to you, it's a to me  
And everybody's getting bills, now  
'Til every freaking label refunding me  
Yeah, you can't replicate my style  
I'm on my high horse, no realm  
And you're looking at the holy grail  
And this is what I wanna make, I don't care if it sells  
Put them lighters up  
(Come on, put them in the air)  
Put them lighters up  
(Everybody, everywhere)  
Put them lighters up  
(High where I can see)  
Put them lighters up  
So you can shine like me  
In the air, in the air  
Put your lights up in the air  
In this moment, come together  
Be as one without a care  
In the air, in the air
