

# I Begin to Wonder

[Dannii Minogue](#)

I Begin To Wonder  
When I'm walking down the street I call your name  
Inside my head I go insane  
Don't you know that it's really making me crazy  
There were days when I went completely blind  
No time to think and I lost time  
Won't believe what's happened to me lately  
'Cause every day is the same day  
Different faces with no name  
Places I've never been before  
And every day is the same thing  
Different faces with no name  
Places I've never been before  
And I begin to wonder  
Don't you know that it's really making me crazy  
And I begin to wonder  
Won't believe what's happened to me lately  
'Cause every day is the same day  
Different faces with no names  
Places I've never been before  
And every day is the same thing  
Different faces with no names  
Places I've never been before  
And every time I think I'm breaking free  
These thoughts return to trouble me  
Hanging on to love has left me empty  
You're a sinner but you told me you're a saint  
Too fast I tripped and lost my way  
Can't believe what's happened to me lately  
'Cause every day is the same day  
Different faces with no names  
Places I've never been before  
And every day is the same thing  
Different faces with no names  
Places I've never been before  
And I begin to wonder  
Don't you know that it's really making me crazy  
And I begin to wonder  
Won't believe what's happened to me lately  
'Cause every day is the same day  
Different faces with no names  
Places I've never been before  
And every day is the same thing  
Different faces with no names  
Places I've never been before  
Walking down the street I call your name  
All this time you led me astray  
And making love to you I do the same  
But now I know you blinded me  
And there were days when I went completely blind  
I thought I was over you, really over you  
No time to think, I lost time  
No, I'm not over you  
And I begin to wonder  
Don't you know that it's really making me crazy  
And I begin to wonder

Won't believe what's happened to me lately 'Cause every day is the same day  
Different faces with no names  
Places I've never been before And every day is the same thing  
Different faces with no names  
Places I've never been before And I begin to wonder
