

Rising (feat. Casey Lee Williams)

Jeff Williams

Stay close, move fast
The darkness cannot last
No hope, no path But we've got a dream to catch
And we cannot wait
Trust the way we're made
The sparrow's born to fly The mountains tower
The river knows to reach the sea
Rain will help the flowers be
We're the same, you and me The lightning doesn't take advice from anyone
The willow doesn't need to learn to stand
As sun seeks day
We'll find our way
And we'll catch that dream together someday soon
We're rising like the moon Stand firm, outlast
We won't be beaten by the past
One goal, one pact Looking forward, never back
And we're on our way
Love's the choice we made
We're looking to the sky The light will guide us
A rose will grow to be a sea
From every life another leads
By the way, we're meant to be The sky is turning black
Light is fading fast
But we don't surrender
Shattering the night
Radiant and bright
Our might is splendor
Shining forever We are paragons of virtue and glory
Death can't find our endless story
Infinite and unbound The lightning doesn't take advice from anyone
The willow doesn't need to learn to stand
As sun seeks day
We'll find our way
And we'll catch that dream together someday soon We're rising like the moon
