

# You Make Me Feel

## Bonfire

Deep in the night, when I'm alone  
My heart starts to burn, cause I feel for you  
I've been away too long from my love  
I leave it up to you, to understand I've got this feeling, deep in my mind  
Come back and love me, just one more time  
On the ground of an ocean, we buried our love  
Far away  
My heart's still bleeding  
Won't you come back and stay But I can't understand  
Why there's salt in my eyes  
And I can't understand  
Why your heart's in disguise  
For I still need you  
And I want you to come back again  
You make me feel like never again I can't find the answer  
From a look in your eyes  
And my heart's still crying  
Don't tell me  
Your love's a lie  
You're still the one  
Who can set me in a state of trance  
Why don't we give us a second chance But I can't understand why you laugh  
Though you cry  
And I can't understand why I don't say good bye For I still need you  
And I want you to come back again  
You make me feel like never again  
For I still need you  
And I want you to come back again  
You make me feel like never again  
For I still need you  
And I want you to come back again  
You make me feel like never again  
For I still need you  
And I want you to come back again  
You make me feel - never again
