Wild

John Legend & Gary Clark Jr.

I just bought a new car
One where the top goes down
So we can see the starsI wanna take you so far
Out past the Saturn rings
And into my heartI wanna drive you

Wild, wild, wild I wanna love you

For miles and miles

We can go slow

We don't need to rush

I'll take the wheel, make you feel every touch

I wanna drive you

Wild, wild, wild

Lay on the passenger's side

Tell me how fast you want?

We'll get there tonight

Oh, oh, oh, fire

You set me on fire

I swear you're the only one

I'd take on this rideI wanna drive you

Wild, wild, wild

I wanna love you

For miles and miles

We can go slow

We don't need to rush

I'll take the wheel, make you feel every touch

I wanna drive you

Wild, wild, wild

Yeah

Wanna love you, wanna touch you, wanna drive you (Wild, wild, wild) Oh, wanna love you, wanna touch youI wanna drive you

Wild, wild, wild

And I wanna love you

For miles and miles

We can go slow

We don't need to rush

I'll take the wheel, make you feel every touch

I wanna drive you

Wild, wild, wildYeah, I wanna drive you

Wild, wild, wild
