

Breathe Today

Flyleaf

You can only move as fast as who's in front of you
And if you assume just like them,
what good will it do?
So find out for yourself so your ignorance will stop bleeding through
You can breathe today...So many lies swirling all around you; you're suffocating
The empty shape in you steals your breath; you're suffocating
Logic forces me to believe in this and I have learned to see
And I can only say what I've seen and heard and only you can choose
And every choice you make will affect you
Search your own self
You can breathe today...So many lies swirling all around you, you're suffocating
The empty shape in you steals your breath; you're suffocating
So many lies swirling all around you, you're suffocating
The empty shape in you steals your breath; you're suffocating
BREATHE! Big enough to fill the void that's inside of you
It's just a breath away
So many lies swirling all around you; you're suffocating
The empty shape in you steals your breath; you're suffocating
So many lies swirling all around you; you're suffocating
The empty shape in you steals your breath; you're suffocating
(BREATHE!)
So many lies swirling all around you; you're suffocating
(BREATHE!)
The empty shape in you
Breathe today
