

# Lonely As Can Be

## The Concretes

there he goes again following idle hands  
begging them to lead him astray  
as far as they may.  
you're lonely as can be  
known as a friend of me  
there he goes again  
and then he's gone again  
while I follow them around, follow them around  
cause I never really tried  
inside of me a fear will grow  
holding hands with demands  
you're lonely as can be  
known as a friend of me  
there he goes again  
and then he's gone again
