

# Just Say Yes

Dido

Just say yes  
Why say no  
You can say yes  
And just come home Just come here  
Don't step away  
Don't start there  
When you can be here  
Nothing is familiar  
Nothing stays the same  
But it's ok  
Even if, if you think you should walk  
Before you can run  
Then falling is wrong  
Even if, if you believe  
Fate conspires against you again Just say yes  
Why say no  
You can say yes  
And just come home  
Just come here  
Why step away  
Don't start there  
When you can be here  
Nothing is familiar  
Nothing stays the same  
But it's ok
