

# Okay, I Feel Better Now

AFI

There is nothing to me  
There is nothing though there was a time  
I had felt elation  
Before all sensation died I cannot breathe  
I can't deny  
That I've been feigning for you  
Every vital sign  
Defied This means nothing to me  
This means nothing so spare me the lies  
I deny you sympathy  
Just as I have been denied  
(I cannot breathe)  
I cannot breathe (I cannot breathe)  
I can't deny  
That I've been faking for you  
Every sign of life  
I died For the last lie  
And the heartbreak  
For the first time  
I could not take I could not take  
Till I made you cry This is what you taught me  
This is what you taught and I learned well  
To recognize that feeling  
Easily can be dispelled  
(I cannot breathe)  
I cannot breathe (I cannot breathe)  
I can't deny  
That I've been faking for you  
Every sign of life  
I died For the last lie  
And the heartbreak  
For the first time  
I could not take  
(For the last lie  
And the heartbreak  
For the first time)  
I could not take  
Till I made you Show your wounds, I'm bored with mine  
Nothing is new  
Don't despair, I rarely cry  
Oh my Oh, my dear, please dry your eyes  
Who could harm you?

To hurt you is to be despised  
As I'd love to For the last lie  
And the heartbreak  
For the first time  
I could not take  
(For the last lie  
And the heartbreak  
For the first time)  
I could not take  
Till I made you cry Till I made you cry Till I made you... cry  
Oh Till I made you cry
