

# Should I

## Little Dragon

How many weeks since you were mine?  
I stayed over all the time  
If I was invited, I'd be there  
But you're acting busy, why should I care? Should I care?  
Should I care?

Should I? Blue, blue, it came, I watch your magic  
People afraid of feeling tragic  
If I was invited, I'd be yours  
But you're high headed with all of your chores  
Should I care?  
Should I care?

Should I? Touch me, touch me, I don't mind my  
Glasses are dirty and on fire  
Friends looking blurry over there  
Then I feel, why do we, do we care?  
I'll be your lover  
I'll be your friend

Invite me in, invite me in How many times I slip and bruise?  
I'm out of bandaids 'cause of you  
Just one crazy lover, babe  
Now, there you go, why do I care?  
Do I care?  
Do I care?  
Do I?

Should I? Should I care?  
Should I care?  
Should I care?
