This Is Love

Kelly Rowland

Can you describe the moment When two people fall in love? Some say the clouds will spin in circles And the rain will turn to doves The poor will start to laugh Even the rich will start to cry It can sneak up like a soldier It can wake you up at nightsThat's what I feel when I'm Standing here with you That's what my heart has Sworn to be trueThis is love It's written on my face It's the way I lean my body towards you Even when I'm a hundred miles away This is love Like a diamond in the sand It took so long to find you I can't wait another day to sayThis is love, oh This is love, yeahYou take my imperfections And turn them into art If I could change one thing about you There would be no place to startYou are safety without numbers You are dangerously wild But you're sweeter than [Incomprehensible] candy And you ease my inner childThat's what I feel when I'm Standing here with you That's what my heart has Sworn to be true This is love It's written on my face It's the way I lean my body towards you Even when I'm a hundred miles awayThis is love Like a diamond in the sand It took so long to find you I can't wait another day to say This is love, ohh yeahNo, I? m no easy angel I? m moody like the wind I am impatient, complicated I am fragile deep withinBut you? re no fool And I? m no little girl Have we not found There is love in the worldThis is love I said, it's written on my face

It's the way I lean my body towards you Even when I'm a hundred miles awayThis is love Like a diamond in the sand It took so long to find you I can't wait another day to sayThis is love, oh This is love, love This, this is love
