Outlaws

Alessia Cara

Run, run like the devil's behind us Run to where no one can find us Be my accomplice to my crime Oh, baby, run Run cause we're guilty as sin Run cause we know we won't win We know, together, we kill timeYou'll never face a judge without me You'll never battle the gavel alone And if they lock us away Then I'll be still here, proudly waiting to kill more time With youWe'll be outlaws We'll take on the world We'll be outlaws Run, run like you never did Cause they found the evidence And they found your fingerprints All on me And, baby, run Run like your life depends on it Let's make forever in this moment Tell me you love me again, oh again And I would waste away without you You're the shining to my star I'd be searching til I found you, wherever you are, you areWe'll be outlaws Partners in crime We'll take on the world together I'm Bonnie, you can be Clyde We'll be outlaws You and me They'll never understand the honor among these thieves O-O-O-Ohhhh, o-o-oh O-O-O-Ohhhh. o-o-o-oh You'll never face a judge without me You'll never battle the gavel alone And if they lock us away Then I'll be still here, proudly waiting to kill more time With you Oh, with you With you Oh, with you, o-ohWe'll be outlaws Partners in crime We'll take on the world together

I'm Bonnie, you can be Clyde We'll be outlaws You and me They'll never understand the honor among these thieves We'll be outlaws
