

Brand - New - Life

Young Marble Giants

So bad when you went away
Nothing I could do or say
And now we are a lonely two
Sit at home and watch the tube I've been hurt before,
Sorrow knocking on my door
Pain And so I make a brand-new-life
Fashioned out of brand-new strife
And when I hear the doorbell ring
I can never let them in to me Pain is in me every day
When you went it came to stay
Come and be a cure for me
Make the tears come out of me
So bad when you went away
Nothing I could do or say
And when I hear the doorbell ring
I can never let them in to me
