She Don't Love Me (Acoustic)

Blake Shelton

Blake Shelton LyricsShe Don't Love MeYou know if I'd seen her comin' I'd probably tried to hide But I came around the corner And she caught me by surprise There was no ice cold shoulder There was no ugly scene She just smiled and didn't say The things I thought she'd say to meWell it was nothin' like that rainy night She left and slammed the door Not only she don't love me She don't hate me anymore I felt like some neighbor Just some guy she once knew You'd never know she loved me And I broke her heart in two Was she hidin' her emotions Or did she really get that strongRight then she turned and duced me to her new friend JohnI could tell the way he shook my hand He'd never heard of me before Not only she don't love me She don't hate me anymoreThere was no ice cold shoulder There was no ugly scene She just smiled and didn't say The things I knew she'd say to me I guess she got so caught up in him My memory's gone ignored Not only she don't love me She don't hate me anymoreI know it might sound crazy But I don't know what hurts me more Is it the fact that she don't love me Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
