

# I'm Only Joking

## KONGOS

There's a song  
You're trembling to it's tune  
At the request of the moon  
Licking her chops  
She looks at the lunatics  
She needs another fix  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
Only a crazy little thing I read  
Maybe the planets are trying to become the stars  
And we really came from Mars  
The Earth is alive and man is a parasite  
And heavenly bodies make us fight  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
Only a crazy little thing I read  
There's a song  
You're trembling to it's tune  
Another request of the moon  
Look at her chops, She looks at the lunatics  
She needs another fix  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
I'm only joking  
I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
I'm only joking

I don't believe a thing I've said  
What are you smoking  
I'm just fucking with your head  
Only a crazy little thing I read  
Only a crazy little thing I read
