

# I'll Wait

## Kygo & Sasha Sloan

I'll never forget the songs we used to play  
But when I put 'em on  
The feeling never fades out my body  
I hope you're thinking of me There won't be a night, there won't be a place  
Where you don't cross my mind  
Where I don't see your face in somebody  
I hope you're thinking of me People say we're fools, people say we're dumb  
People say we're caught up in temporary love  
We don't know what we're doing, they say we're too young  
But they don't know a thing about us I'll wait forever, that's what we said  
16th of September lying in my bed  
I'll wait forever, it's never too late  
Couple thousand miles is just a little space  
I'll wait, mmm  
I'll wait, mmm  
I'll wait, mmm  
Couple thousand miles is just a little space  
I'll wait I'll wait There won't be an end, can't forget the start  
When you're far away it's like we're not apart  
I'd play my money  
Just to hear you say you love me, again People say we're fools, people say we're dumb  
People say we're caught up in temporary love  
We don't know what we're doing, they say we're too young  
But they don't know a thing about us I'll wait forever, that's what we said  
16th of September lying in my bed  
I'll wait forever, it's never too late  
Couple thousand miles is just a little space  
I'll wait, mmm  
I'll wait, mmm  
I'll wait, mmm  
Couple thousand miles is just a little space  
I'll wait I'll wait, mmm  
I'll wait, mmm  
I'll wait, mmm  
Couple thousand miles is just a little space  
I'll wait Forever, that's what we said  
16th of September lying in my bed  
I'll wait forever, it's never too late  
Couple thousand miles is just a little space  
I'll wait
