

Ondine

Lower Dens

I think you'll understand
The way I feel can't be helped
You owe them nothing Its time to walk away
And leave this behind
Let go I would treat you better
I would treat you better
I would treat you better
Ill treat you better
Hold on, oh love You can hold out
As long as you know
You are leaving
You are leaving
I would treat you better
I would treat you better
I would treat you better
Ill treat you better Hold on, oh my love
