

X Up (feat. Messinian)

Excision & The Frim

X

I ain't talking pills that you pop
When you want endorphins rushed to your noggin
And jaws all locking

X-

-changing, we're rearranging
Your brain's composition and DNA
With the poison we dropping

X-

-pect the unexpected
Projected upon your neurological screen
Whenever we wreck it

X-

-tensively send you into
Intensive care therapy
It's ill when the serum's injected

X-

-amine the cadence is getting deadly

X-

-ponentially quickening, is you ready?

X-

-ecuting you by the ears with machetes

Let me see you throw ya X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

X up

Now throw ya X up

X

Now throw ya X up

X

Now throw ya X up
