

Feels So Good

Kelly Price

Chorus

Feels so good. Feels so good. feels so good. feels so good, feels so good Yeah now after all the
years of drama all the time

must wonder I couldn't see if he love me love me not
had me always questioning I'm in the heart in my belief
no insecurities put the smile back on my lips the swing
back in my hips and it feels so good Chorus I never knew it could be this way

Hey I'm going to finally do it my way finally know
it's ok to take care of me you can love me or love
me not that don't really bother me cause now I'm trading
in my fears and insecurities gonna let my self forgive
and free myself to live and it feels so good Chorus And I never knew that it could be this way

And I never thought that I could believe that this
is real and I never thought that I could ever feel
the way I feel no I never thought that I would out
live the lonely years but now I'm smiling you see the
light in me and it feels so good Chorus End
I never knew it could be this way I keep smiling keep shining baby it feels so good
