

# Downtown (feat. Kidd Kidd)

## August Alsina

Word got around that a nigga got shot  
Heard a nigga drew down' and he bucked so his ass got popped  
We was on my block trying to move these rocks  
Trying to stack this cash on the low, gotta duck these cops  
We was right off third and polock chilling in the back of the tracks  
Niggas got packs, trying to get them racks  
X5 I was riding in the back with the brother's' round kicking in the gat in my lap  
17 had no dreams, drinking four loco's, Sprite and codeine  
First class I was on lean, said fuck high-school, so I left Reed.  
No one told me life would be this way!  
I swear nobody told me  
Guess this is the game we chose to play  
Crazy how it's always been the same!  
People dying every day, that ain't nothing new  
When you from downtown, downtown!  
Out here tryna make a way  
I won't let these niggas take me down-down, down!  
(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em  
(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em  
Phone just RANG heard a nigga got got  
He was over in the East last thing that he heard six shots  
He ain't gettin' no love from the cops, nobody got caught  
Real talk when I heard who it was, heart damn near stopped  
Somebody done killed my brother, now I gotta get back  
Let 'em know 'cause a nigga gotta feel that!  
Sitting shotgun with the shot gun  
When you hear the shots come, nigga don't run!  
Already bad, it can only get worse  
Hand full of steel 'cause the shit still hurts  
Cut so deep when they put him in the hearse  
Never saw 25, had to put him in the dirt.No one told me life would be this way!  
I swear nobody told me  
Guess this is the game we chose to play  
Crazy how it's always been the same!  
People dying every day, that ain't nothing new  
When you from downtown, downtown!  
Out here tryna make a way  
I won't let these niggas take me down-down, down!

(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em  
(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em Once upon a time down town in the nine  
(9th ward)  
Where they don't mind dying  
Sworn to a life of crime, was a youngin' that only stood 5'5  
Big money on his mind, clothes ain't wrinkled while his hands on his iron.  
Shot six times right in front of my mom  
Kind of 32, man, I'm lucky to survive  
On a pac, juice real niggas don't die!  
Bitch, I'm from Mazant slang crack on the same set  
Blood stains at from a homie with his head cracked  
O'Gs like A' wacks they've been doing this shit way back since A track.  
And we yell where the gang at  
You can get fame there from the way you're going to bang that  
Shoot for the head watch how you aim that  
Price on your head and we gon' take that  
It's about to go down, you ain't about this then you better go now  
Sun going down, keep it door down!  
Everybody lay down. Ski mask down!  
All you gonna see is my eyes and my frown  
Last thing you hear is my gun going pow  
It happens every day round my way  
This ain't nothing new you grew up downtown. People dying every day, that ain't nothing new  
When you from downtown, downtown!  
I'm just trying to make a way,  
I won't let these niggas take me down-down, down!  
(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em  
(So I ride)  
Riding on these niggas, I be riding, I be riding on 'em  
Riding on these niggas, I be riding, I be riding on 'em
