

Love Made Me

Vixen

Our conversation ends too soon
You grab your coat and leave the room
My heart dissolves on to the floor
Our world divides, we don't talk anymore
And I still remember when we first met
It was on a night like this
The moon was shining for you and me
When I stood alone I'd be betrayed by your kiss
Love made me blind to the truth
Love made me crawl, I should've stood up to you
Love made me cry out your name
So what's so good about love when it hurts you this way
Cold lurking nights, in the days there were tears
They held us captive and chained to our fears
Is this the dream you've been searching for
Is this the love that I don't want anymore
Love made me blind to the truth
Love made me crawl, I should've stood up to you
Love made me cry out your name
So what's so good about love when it hurts you this way
Somewhere in a scene you were
holding me
We both never fade
But the hope it sounds on the battleground
Nothing's gonna change
Love made me blind to the truth
Love made me crawl, I should've stood up to you
Love made me cry out your name
So what's so good about love when it hurts you this way
Love made me blind to the truth
Love made me crawl, I should've stood up to you
Love made me cry out your name
Love made me hold
Love made me blind to the truth
Love made me crawl, I should've stood up to you
Love made me cry out your name
