

# Borderline

## Buckcherry

Dance with me people  
Yeah  
The canvas of an open mind  
Well it makes a good mold  
I'm taking off on you this time  
Don't be late for the show  
We're always laughing and singing and groovin and loving and reaching for more  
I can't sleep on it tonight  
But tomorrow will bring more  
You know what I'm talking about  
Now here we go  
CHORUS  
So come and ride  
On the borderline  
The timing's right  
Are you satisfied I thought about a time away  
And I'm taking it slow  
It's hard to break away from loving when it feels so good  
We're always laughing and singing and grooving and loving and reaching for more  
I cannot sleep on it tonight  
But tomorrow will bring more  
And he always loves you all, come on now So come and ride  
On the borderline  
The timing's right  
Are you satisfied  
Are you satisfied  
SOLO Alright  
Yeah  
Alright  
Yeah, yeah, yeah, yeah  
Done so much living, baby  
All the way to top we go  
Yeah, yeah, yeah, yeah  
Done so much living, baby  
All the way to top  
When you love, yeah  
When you love, yeah  
Well you always gotta give back to love  
When you love, yeah  
When you love, yeah  
Well you always gotta give back to love So come and ride  
On the borderline

The timing's right  
Are you satisfied  
Talk to me now  
So come ride  
On the borderline  
The timing's right  
Are you satisfied...
