

# Baby Lay

Faith Evans

Baby baby baby  
Baby won't you lay your body down  
If you put it in my hands you know I'll work it out  
You can put your mind at ease no need to doubt  
Don't you know a lover and a friend in me you found  
So let me take your cares away  
Just let me ease your pain  
Let me take your cares away  
Just let me ease your pain  
Baby now is the time that you make up your mind  
You can stop complaining  
Why you still explaining  
What you really waiting for  
Baby won't you lay your body down  
If you put it in my hands you know I'm gonna work it out  
I can take your cares away if you just let me ease the pain  
Baby you know I can take all your cares away  
Just let me ease your pain  
Baby now is the time that you make up your mind  
You can stop complaining  
Why you still explaining  
What you really waiting for  
Baby tell me why (tell me why it is, what you waiting for)  
So tell me why you explaining  
What you really waiting for  
So tell me why you explaining  
What you really waiting for  
Tell me why you explaining  
What you really waiting for  
And you know I'll work it out  
Why you explain  
What you waiting for  
Tell me why, tell me why, baby tell me  
Can you tell me why  
Just tell me why  
Oh tell me why baby
