

Molotov Cocktail Party

Molotov

I'll rip your head off and defecate down your neck
You better alejate because I don't give a heck
You can't understand how I kicks my bingo
you better step back because here comes the crazy gringo
I your face, that's right I'm freestylin
Doing it with ease all the while your tryin
to be like me, I can't understand
Why you can't be your own man
Peoplle try to get with the style I got
Don't you know I'm doin' it w/out coke or pot
I'm naturally kind of f**ked up like that
You know what I'm saying
M to the O to the L to the O to the T to the O to the V
For those ileterate bastards who cannot spell Molotov is who
we be
Molotov shit is to tight, much, much stronger than any
dynamite
Slick is the way res'e moving, funky as shit is the way it's
grooving
Masoline in a Coke bottle, you get all pissed 'cause we
turned up the throttle
Plug it up w/a gas checked rag, I don't run away 'cause I'd
rather le my
pants sag.
Met out the lgther, set it on fire, watch it as I throw it
getting brighter &
brighter
Contact was made with the opposing objective, you went from
something to nothing in just under a second.
M to the O to the L to the O to the T to the O to the V
For those ileterate bastards who cannot spell Molotov is who
we be
They call us Molotov 'cause we explode on sight
Keep on talkin'g shit if you're looking for fight
Your mouth keeps moving but all I hear is noise
If you're f**king with the gringo loco you better go get
yours boys
Mike, Pac and Tito, they got my back
If you think you're bad enough I'll put you down the snack
Believe it or not what I'm saying
Don't be stupid kid 'cause I ain't playing.
M to the O to the L to the O to the T to the O to the V

For those ileterate bastards who cannot spell Molotov is who
we be
