

Sleep Alone (feat. Soren Bryce)

Black Coast

I spent all last night alone
It came as a shock to those who love me
More than I myself
Every hour, I cried for help
I spent all last night alone
I thought this time I was done
With filling in the gaps and holes
Drowning out, I'm far too low
Could you come back home?
Be my melatonin?
Give me crazy dreams?
We're off in the morning
Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
You spend every day alone
Pondering the ways in which to move
On with your milestones
Drowning out all the thoughts you love
Could you come back home?
Be my melatonin?
Give me crazy dreams?
We're off in the morning
Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
Oh... oh, oh
Oh, oh
Could you come back home?
Be my melatonin?
Give me crazy dreams?
We're off in the morning

Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
Even though the door's closed, ah
You can still be my home tonight
I don't care if we're close... I
I just don't want to sleep alone...
