

# Love Is on Our Side

## Capital Kings

If there's an open way, I'll just run  
When everything else fades and turns to dust  
We're searching to find a way from here  
We'll follow our souls  
Into the night, let's disappear  
Cause wherever we go Love is on our side  
Love is on our side  
Your love is on our side Your love is on our side  
Your love is on our side  
Feel the love right now  
The love right now (Your love is on our side)  
Feel the love right now  
The love right now  
Keep rolling like the waves and crash the sin  
With every word You say, in faith we stand  
Rising our planks to clouds of smoke, reaching new heights  
We're breathing the sun and feel the glow  
Like we're touching the sky Love is on our side  
Your love is on our side  
Love is on our side  
On our side, on our side  
On our side, on our side (Your love is on our side)  
On our side, on our side  
Your love is on our side  
Your love is on our side  
Your love is on our side  
Your love is on our side  
Feel the love right now  
The love right now  
Come back to life again  
Feel the love right now  
The love right now  
Come back to life again Feel the love right now  
The love right now  
Come back to life again Again  
Your love is on our side
