

# A Christmas Song for You

[Kem](#)

I met a girl on Christmas day  
She stole my heart took my breath away  
We were young and quite naive  
Young enough we still believed That love never dies  
It just grows throughout our lifetime  
And girl you know it's true  
Here's a Christmas song for you, baby  
Hey girl  
Merry Christmas girl, yeah  
At this special time of year  
I am thankful that you're still here  
There'll be mistletoes and color lights for the Christmas tree  
They barely define what you mean to me Baby love never dies  
It just grows throughout our lifetime  
And girl you know it's true  
Here's a Christmas song for you, baby  
I love you girl, yeah In my heart I always knew  
That I would spend my whole life with you  
So may your holidays be merry and be raised  
And may your world be at peace tonight  
Baby love never dies  
It just grows throughout our lifetime  
And girl you know it's true  
You're like a light in my life shining through  
If there was only one thing I could do  
I'd sing this Christmas song to you
