

# I Tried (feat. Gentleman and Tamika)

## SOJA

I cant forget that day I got you  
There's something about you,  
I just watched you  
Like something I tried but I forgot to...  
It's not that i want to  
It's just that I lost you Thoughts of you run over in my mind and  
I try so hard to just press rewind to find  
Something I held maybe one time and I... All I do is think x3 But thinking about you never  
brought you back,  
So far from you in my mind I go.  
But my heart hurts and brings me back  
Before i Know  
And All i do is think x3 Cuz I tried to change  
And I tried to change  
And I tried to stay,  
I tried to stay the same  
I tried to work  
And tried to work  
I tried for her, I tried. I cant forget that day I got you  
There's something about you,  
I just watched you  
Like something I tried but I forgot to...  
It's not that i want to  
It's just that I lost you  
All I know, the more that I think about it is  
The deeper the doubt it is  
Unsure what this emotion promises,  
What kind of pain and strain it is  
So many times i've done that before,  
Told myself that I should know more.  
Seek and get past it,  
Now that I lost it  
Theres is no bridge so how can I cross it  
Down so low in the valley of decision,  
Clouded mind disturbing my vision,  
Bleeding heart affecting my vision,  
Compromising on this love mission and  
No matter how me try  
Still she can't just satisfy,  
How could the Truth be a Lie  
Water drop out of me eye  
Cuz me see the well run dry I tried

Cuz I tried to change  
And I tried to change  
And I tried to stay,  
I tried to stay the same  
I tried to work  
And tried to work  
I tried for her, I tried. I can't forget that day I got you  
There's something about you,  
I just watched you  
Like something I tried but I forgot to...  
It's not that I want to  
It's just that I lost you Memories of you keep flashing through my mind  
Can't keep it up and me can't resign,  
Desolation street and me nah see no sigh,  
Got to rise above, to cross borderline It's not that I want to  
It's just that I lost you  
I can't forget that day I got you Memories of you keep flashing through my mind  
Can't keep it up and me can't resign,  
Desolation street and me nah see no sigh,  
Got to rise above, to cross borderline I tried  
Cuz I tried to change  
And I tried to change  
And I tried to stay,  
I tried to stay the same  
I tried to work  
And tried to work  
I tried for her, I tried.
