

Barricade

Lifehouse

I can feel you slip away now
Subtle but these things I've grow to learn
Feeling the way your moving hard to bound
But I'm climbing on top
Right over your barricade
Never gonna stop
There ain't no keeping me away Did you think I wouldn't notice
When your building walls outside yourself
When your worlds leave me defenseless
But I'm climbing on top
Right over your barricade
Never gonna stop
There ain't no keeping me away I'm in your blindspot now
Falling through your cloud
Reaching for you inside out
To bring you back around
Now I'm right back where I started
Here to give you the best of my love
Just when you think I walk away now
But I'm climbing on top
Right over your barricade
Never gonna stop
There ain't no keeping me away
There ain't no keeping me away
