

# Spiral Cities

Johnny Marr

Falling on a...  
Following a new nation  
The days are growing up  
Made for, our life are moments  
Cover all the sky with lights  
The wind is painful, raging  
True love confusion  
Senses are blowing up miles high  
Get mixed up, get danger  
let's merge up the the sky with lightsOn the vertical streets  
We go up up (up up)  
With our eyes set to leap  
Glowing with love love (up up)  
In the spiral cities  
Let's get lost 'cause  
We count stars  
Follow the procession  
Walking in a new nation  
The days are growing up  
Made for, our life in moments  
Everything's painful, danger  
Our eyes are openOn the vertical streets  
We go up up (up up)  
With our eyes set to leap  
Glowing with love love (up up)  
In the spiral cities  
Let's get lost 'cause  
We count starsSenses are blowing up miles high  
Get mixed up get danger  
let's merge up the sky with lights  
On the vertical streets  
We go up up (up up)  
With our eyes set to leap  
Glowing love love  
In the spiral cities  
Let's get lost 'cause  
we count stars  
In the spiral cities  
We go up up (up up)
