

# When I'm With You

## Kaskade & Colette

All the hours seem to fade away  
When I'm with you  
When I'm with you  
All my days seem to fade away  
When I'm with you  
When I'm with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
With you, with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
With you, with you, with you, with you  
All the hours seem to fade away  
When I'm with you  
When I'm with you  
All my days seem to fade away  
When I'm with you  
When I'm with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you  
With you, with you, with you, with you  
When I'm with you, with you, with you  
When I'm with you, with you, with you
