

Always Forever

Cults

You and me always forever
We could stay alone together
You and me always forever
Say you'll stay never be server You know you've got me in your pocket
You don't just have to wait alone
You know I'll keep you in my locket
Just come here and we can settle down You and me always forever
We could stay alone together
Hard to say things could be better
Don't leave don't get away right now
You know you've got me in your pocket
You don't just have to wait alone
You know I'll keep you in my locket
Just come here and we can settle down Oh darling it's alarming thing to think of us apart
You know you've got me in your pocket
You don't just have to wait alone
You know I'll keep you in my locket
Just come here and we could settle down. You and me always forever
We could stay alone together You and me always forever
We could stay alone together
You and me always forever
We could stay alone together You and me always forever
We could stay alone together
