

Parallel Line

Keith Urban

You said, "I love you" to me
And I don't know what that means
So I froze on my feet
People use it so carelessly
And I couldn't believe
That you would dive in so deep
And you said perfectly
Everything I've been feeling about you
It's time to break the chains
That held me back from you
So, come on and
Chorus:
Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight
Baby be mine now
Baby be mine now
Maybe it's time we
Put our hearts in a parallel line
Well I was never the type
To put it all on the line
But I've been changing my mind
Since you opened my eyes
It was the way that the light
Picked you out of that night
Then you were right by my side
Put a soul in my body
And now it's time to close the space between
The two of us
So, come on and Repeat Chorus
Baby, it's time
Baby, it's time
Take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it
Take a little bit of my
Heart tonight
Baby be mine now
Baby be mine now
And take a little bit of my
Heart tonight
No, I literally don't mind
Just please don't misplace it

Take a little bit of my
Heart tonight
Baby be mine now
Baby be mine now
Maybe it's time we
Put our hearts in a parallel line
And put our hearts in a parallel line
And put our hearts in a parallel line
